

What is

GigWorker?

SOLUTIONS

The **first ever** comprehensive benefits specifically for the self-employed, gig worker, and independent professional.

Gig Worker Solutions stands as an industry pioneer, as we've constructed the first Professional Employer Organization (PEO) built on a foundation of technology. By utilizing the PEO model, we are able to create a dual employment relationship where gig-workers can maintain their independence while also gaining the advantages of being a part of a large employee group. This makes Gig Worker Solutions the only place for the self-employed to access group rate benefits.

Due to our emphasis on technology and innovation, we are able to provide all the essentials for the standard \$175 monthly fee, and also provide access to additional benefits at rates comparable to what employees receive at larger corporations.

Anyone who is **paid via 1099**, self employed, or independently contracting is considered a "gig-worker".

What we provide:

Included with Enrollment:

- Essential Health and Telemedicine
- Workers Comp
- Payroll (W2 Income Verification)
- Access to 401k Retirement Plan
- Group Life Insurance
- Family Identity Protection

Additional Electable Benefits:

- Major Medical
- Dental
- Vision
- Disability Insurance
- Critical Illness Insurance
- Legal Protection

Advocates for Independents:

With numerous government entities and legislation threatening the vitality of the gig-economy and those working in it, we are constantly searching for resources and innovations on behalf of the gig worker. Between discovering and providing access to things like the **Self-Employed Tax Credit**, keeping you up to date on issues such as the **Department of Labor's War on the 1099**, and creating partnerships with some the largest benefits providers in the world, we are working 24/7 to make sure that "companies of one" are never truly alone.

Platform Requirements:

In order to create the dual enrollment status which allows us to provide group benefits, You'll need to be registered as an S-Corp (with no W2 Employees) making at least \$36,000 annually, but don't worry! **If you're not an S-Corp, we'll take care of you during the short 15-minute enrollment process.**

Create a free account here and begin exploring the available benefits!
